Passwords

About Us

Since 2000, BCSI Investigations Inc. has performed thousands of successful investigations. Our integrated team of investigators and support services ensure that the investigations are conducted promptly with leading-edge techniques.

With over 40 years of combined experience, BCSI Investigations Inc. is

In light of Cybersecurity Awareness, we will focus on a crucial aspect of online security – passwords. It is more important than ever to protect your digital assets.

Importance of Strong Passwords: Strong passwords are the first line of defense against unauthorized access. Weak passwords are vulnerable to brute force attacks and can be easily cracked. Ensure that your passwords are unique, complex, and difficult to guess. A strong password consists of upper and lowercase letters, numbers, and special characters.

Multi-Factor Authenticator (MFA): Multi-Factor authentication can add an extra layer of security to your accounts by adding an additional step of verification. This typically consists of a unique code sent to a device, email, or application.

Regularly Change Passwords: It is recommended to update passwords at least every three (3) to six (6) months to maintain security. If you suspect any of your accounts to be compromised,

the platinum standard for private investigations.

changing your password as soon as possible is best. Avoid reusing passwords for different accounts.

Password Management Tools: It can be quite difficult for some to keep track of their various multiple passwords. Password management tools such as Dashlane, 1Password, Keeper, or LastPass can help securely store your passwords. These tools can also help generate strong passwords for you.

Having good password hygiene protects your digital assets from unauthorized access and significantly reduces the risk of being a cybersecurity victim.

If you or anyone you know has been a victim of fraud, contact BCSI Investigations for a consultation with one of our seasoned private investigators or our in-house digital forensics specialists.
